Why do we need this information?

EPA needs background information on your facility to evaluate your application.

What do you need to do?

- ♦ Provide background information on your facility.
- ♦ Identify your environmental requirements.

Section A

Tell us about your facility.

1 What do you do or make at your facility?

Naval Air Depot, North Island refurbishes Naval Aircraft and Components for the U.S. Navy and other governments. Naval Air Depot, maintains capability to test, disassemble, repair, manufacture, rebuild, and calibrate much of the U.S. Navy's inventory of Aircraft and Components

2 List the North American Industrial Classification System (NAICS) codes that you use to classify business at your facility.

NAICS
928110 _____

3 Does your company meet the Small Business Administration definition of a small business for your sector?

☐ Yes ☒ No

4 How many employees (full-time equivalents) currently work at your facility? If you checked "Yes" in question 3 and have fewer than 50 employees at your facility, then you are considered a "small facility" by the Performance Track Program.

- ☐ Fewer than 50
- ☐ 50-99
- ☐ 100-499
- ☐ 500-1,000
- ☒ More than 1,000

5 Complete the Environmental Requirements Checklist on pages 32-38 of the instructions and enclose it with your application.

Expiration Date:

-
- 6 Optional: Is there anything else you would like to tell us about your facility? Do you participate in other voluntary programs at the local, tribal, State, or Federal level?

Please see Section A Attachment

Why do we need this information?

Facilities need to have an operating Environmental Management System (EMS) that meets certain requirements.

What do you need to do?

- ♦ Confirm that your EMS meets the Performance Track requirements.
- ♦ Tell us if you have completed a self-assessment or have had a third-party assessment of your EMS.

Section B

Tell us about your EMS.

Read the EMS requirements on page 9-12 of instructions.
Tell us if your EMS meets these requirements for:

Why do we need this information?

Facilities need to show that they are committed to improving their environmental performance. This means that you can describe past achievements and will make future commitments.

What do you need to do?

Refer to the Environmental Performance Table in the instructions to answer questions 1 and 2.

Section C

Tell us about your past achievements and future commitments.

Part 1 You must report past achievements for at least two environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the instructions. Please quantify each of your aspects using the units listed for that aspect in the Environmental PTrack Information Hotline at 1-888-339-PTRK.

Note to small facilities: If you are a small facility, you must report past achievements for only one environmental aspect.

First achievement

1 What aspect have you selected from the Table on page 29-31?	Emissions of Ozone Depleting Gases	
2 What units are you using to quantify this aspect? (See Table, page 29-31.)	Pounds	
	PAST	CURRENT
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	938 Pounds	132 Pounds
4 What are the years for which you are reporting these quantities?	2000	2002
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	0.925	1.0
6 What is your normalizing factor based on (e.g., production, employment)?	Direct labor hours of production	

0032

OMB No. 2010-

06/30/03

Expiration Date:

7 You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?	Replaced ozone depleting cleaners with non-ozone depleters and replaced chillers and A/C units with units that do not use ozone depleting chemicals
--	---

Second achievement

1 What aspect have you selected from the Table on page 29-31?	Energy Consumption	
2 What units are you using to quantify this aspect? (See Table, page 29-31.)	MBTU	
	PAST	CURRENT
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	191,912.7	181,523.4
4 What are the years for which you are reporting these quantities?	2000	2002
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	0.925	1.0
6 What is your normalizing factor based on (e.g., production, employment)?	Direct labor hours of production	
7 You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?	Energy conservation awareness - powered down lighting, production equipment, computers, etc. Developed monthly utility report to management providing utility usage profiles and reduction progress. Provided training, awards and informational booths for employees.	

Part 2 You must make future commitments for at least four environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the Instructions. The aspects you select for your future commitments should be related to the objectives and targets in your EMS. Where possible, they also should be identified as having a significant environmental impact in your EMS. No more than two of your aspects can be from the same environmental category. If you're not sure how your objectives and targets fit into our aspects or whether your aspects are significant, call the PTrack Information Hotline at 1-888-339-PTRK.

Once you have chosen your four environmental aspects, then fill in all the necessary information for these aspects in the tables on pages 7-10 of this form. Please quantify each of your aspects using the units listed for that aspect in the Environmental Performance Table. Each table that you must fill in corresponds to one of the environmental aspects you have chosen.

We will assume that your performance commitments are based on a constant production or employment level. If you would like to base your commitment on changing production or employment, please fill out optional questions 6a and 6b.

Note to small facilities: If you are a small facility, you must report future commitments for only two environmental aspects.

First commitment

1 What aspect have you selected from the Table on pages 29-31?	Water Use	
2 What units are you using to quantify this aspect?	Gallons	
3a Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
3b If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
4 List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	28.2 million gallons	21.0 million gallons
5 What are the years for which you are reporting these quantities?	2002	2006
6a (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.15
6b (Optional) What is your normalizing factor based on (e.g., production, employment)?	Production (Direct labor hours)	
7 You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Improve irrigation controls, implement water recycling projects, and continue to upgrade domestic water systems	
8a Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
8b If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.

6b (Optional) What is your normalizing factor based on (e.g., production, employment)?	Direct labor hours of production	
7 You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Energy conservation investment project construction to begin in 2004 which will include energy efficient lighting and controls, new heat treat equipment, and direct digital controls. Additional projects are currently being identified and designed. Increase energy awareness by establishing a building energy monitor program.	
8a Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
8b If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.	Executive Order 13123, "Greening of the Government Through Efficient Energy Management". Policy goal is that industrial federal facilities such as NADEPNI reduce energy consumption 20% by 2005 and 25% by 2010, using 1990 as a baseline.	

Third commitment

1 What aspect have you selected from the Table on pages 29-31?	Reduction of Toxic Emissions	
2 What units are you using to quantify this aspect?	Tons	
3a Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
3b If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
4 List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	20.3	19
5 What are the years for which you are reporting these quantities?	2002	2006
6a (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.15
6b (Optional) What is your normalizing factor based on (e.g., production, employment)?	Direct labor hours of production	
7 You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Material substitution and better material controls	
8a Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
8b If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.	<p>National Emissions Standards for Hazardous Air Pollutants for Aerospace Manufacturing and Rework and Shipbuilding.</p> <p>These standards contain limits on individual coating formulations such as pounds HAP/gallon coating, but do not require an overall reduction in facility HAP emissions. NADEPNI has been in continuous compliance with these MACT standards since their effective dates (9/98 and 12/98, respectively).</p>	

Fourth commitment

1 What aspect have you selected from the Table on pages 29-31?	Hazardous Solid Waste	
2 What units are you using to quantify this aspect?	Pounds	
3a Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
3b If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
4 List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	664,000	647,000
5 What are the years for which you are reporting these quantities?	2002	2006
6a (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.15
6b (Optional) What is your normalizing factor based on (e.g., production, employment)?	Direct labor hours of production	
7 You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Material substitution and recycling	
8a Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
8b If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.	California Senate Bill, SB-14. Requires hazardous waste source reduction planning but does not contain mandatory requirements for reduction. Our commitment exceeds the requirements of SB-14 by committing to a quantifiable reduction.	

Why do we need this information?

Facilities need to demonstrate their commitment to public outreach and performance reporting. You should have appropriate mechanisms in place to identify community concerns, to communicate with the public, and to provide information on your environmental performance.

What do you need to do?

- ♦ Describe your approach to public outreach.
- ♦ List three references who are familiar with your facility.

Section D

Tell us about your public outreach and reporting.

1 How do you identify and respond to community concerns?

NADEP maintains a public affairs office which is available to respond to public concerns and requests for information. Points of contact are listed on the NADEP website.

2 How do you inform community members of important matters that affect them?

NADEP keeps interested community members informed by being involved in local government and community groups. A sampling of the local groups includes the San Diego Association of Governments (SANDAG), Chambers of Commerce in San Diego and surrounding communities, and the Restoration Advisory Board – an organization of local citizens, environmental organizations, industry and regulators – to monitor current and future environmental remediation practices and projects. Employees from our environmental office participate in the Command Speakers' Bureau, visiting community groups to address specific issues and provide us with feedback. Each year, we have a booth at the San Diego Earth Fair, where we publicize our programs, processes, results and awards – as well as obtain feedback from the public.

Application and Participation Statement.

On behalf of Naval Air Depot, North Island
[my facility],

I certify that

I have read and agree to the terms and conditions for Application and Participation in the National Environmental Performance Track, as specified in the *National Environmental Performance Track Program Guide* and in the *Application Instructions*;

- I have personally examined and am familiar with the information contained in this Application, including the Environmental Requirements Checklist. The information contained in this Application is, to the best of my knowledge and based on reasonable inquiry, true, accurate, and complete, and I have no reason to believe the facility would not meet all program requirements;
- My facility has an environmental management system (EMS), as defined in the Performance Track EMS requirements, including systems to maintain compliance with all applicable Federal, State, tribal, and local environmental requirements in place at the facility, and the EMS will be maintained for the duration of the facility's participation in the program;
- My facility has conducted an objective assessment of its compliance with all Federal, State, tribal, and local environmental requirements, and the facility has corrected all identified instances of potential or actual noncompliance;
- Based on the foregoing compliance assessment and subsequent corrective actions (if any were necessary), my facility is, to the best of my knowledge and based on reasonable inquiry, currently in compliance with applicable Federal, State, tribal, and local environmental requirements.

I agree that EPA's decision whether to accept participants into or remove them from the National Environmental Performance Track is wholly discretionary, and I waive any right that may exist under any law to challenge EPA's acceptance or removal decision.

I am the senior facility manager and fully authorized to execute this statement on behalf of the corporation or other legal entity whose facility is applying to this program.
